CALIFORNIA LEGISLATURE—2015–16 REGULAR SESSION

ASSEMBLY BILL

No. 1845

Introduced by Assembly Member Dahle

February 9, 2016

An act to amend Section 5515 of, and to add Section 2081.4 to, the Fish and Game Code, relating to fish.

LEGISLATIVE COUNSEL’S DIGEST

AB 1845, as amended, Dahle. Protected species: take: rough sculpin.

Existing law prohibits the taking or possession of any fully protected fish, except as provided, and designates the rough sculpin as a fully protected fish. The California Endangered Species Act prohibits the taking of an endangered or threatened species, except as specified. The Department of Fish and Wildlife may authorize the take of listed species if the take is incidental to an otherwise lawful activity and the impacts are minimized and fully mitigated.

This bill would permit the department to authorize, under the California Endangered Species Act, the take of the rough sculpin (*Cottus asperimus*) resulting from impacts attributable to replacing the Spring Creek Bridge in the County of Shasta if certain conditions are satisfied.

This bill would incorporate additional changes to Section 5515 of the Fish and Game Code, proposed by AB 2001 and AB 2488, that would become operative only if this bill and either or both of those bills are chaptered and become effective on or before January 1, 2017, and this bill is chaptered last.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares as follows:

2 (a) The Spring Creek Bridge at Fall River is an old,
3 150-foot-long multispan wood structure that is constantly exposed
4 to water and in a constant state of decay requiring significant and
5 ongoing maintenance.

6 (b) The bridge provides access to ranches, residences, and
7 United States Forest Service lands. If the existing Spring Creek
8 Bridge fails, traffic will be detoured on to United States Forest
9 Service roads and private, unpaved roads that may be impassable
10 in winter months.

11 (c) In order to maintain access to these lands, the County of
12 Shasta must be authorized to take the rough sculpin to replace the
13 Spring Creek Bridge at Fall River.

14 SEC. 2. Section 2081.4 is added to the Fish and Game Code,
15 to read:

16 2081.4. (a) The department may authorize, under this chapter,
17 the take of the rough sculpin (*Cottus asperimus*) resulting from
18 impacts attributable to replacing the Spring Creek Bridge in the
19 County of Shasta, if all of the following conditions are satisfied:

20 (1) The requirements of subdivisions (b) and (c) of Section 2081
21 are satisfied for the take of the rough sculpin.

22 (2) The department ensures that all further measures necessary
23 to satisfy the conservation standard of subdivision (d) of Section
24 2805 are incorporated into the project.

25 (3) The take authorization provides for the development and
26 implementation, in cooperation with federal and state agencies, of
27 a monitoring program and an adaptive management process until
28 the department determines that any impacts resulting from the
29 replacement of the Spring Creek Bridge have been fully mitigated.

30 (b) This section shall not be construed to exempt the project
31 described in subdivision (a) from any other law.

 6 fully protected fish for necessary scientific research, including
